and Councilmen—held a secret consultation yesterday afternoon, for the purpose of devising a programme of proceedings, in anticipation of a veto by Mayor Opdyke. The result of their deliberations is briefly this:—

WHAT THEY WILL DO.

They will addere firmly to their own position, and piedge themselves to pass the ordinance over a veto. On Tuesday next, when the ten days allowed the Mayor will have expired, they will meet and take decided action, with a view to raising a sufficient prebensive class of those in "indigent circumstances." The Comptroller will immediately consult the leading capi talists, and it is said he will be able to raise a sufficient sum in advance of the legal passage of the ordinance. Should the Mayor veto it, ten days more will have to ex-pire before the Common Council can take final action in the premiser. In the meantime the unlucky winners in "the lottery of life" should keep cool, and make their minds easy on the subject. The Common Council will not fail to fulfil their promise, whether the Mayor comes up to the scratch or not.

Apprehended Riots in Brooklym.
Considerable apprehension is manifested by the people of Brooklyn lest the hostility to the draft, which is being kept down by force in New York, should find yent and opportunity for mischief in their city, owing to the small number of military and police stationed there. Our neighbors have no occasion to feel disquieted on this account. When the draft-commences in their city they will have full protection. Matters have been so arranged by the State and federal authorities that a large portion of the troops quartered in New York can be moved ever to the troops quartered in New York can be moved over to Brooklyn at a moment's netice, even though the ferry-boats should be prevented running. The Board of Councilmen met last night and passed a resolution to of-operate with the citizens' committees. The form of an act was also adopted to be presented for passage by the Legislature next winter, providing for the issuing of bonds upon which to raise the money which is to be precified telipforarily in negociable prices.

The committee complain that their geots is in excessivity we men, and they propose to raise only one hundred and sirty men of the two bundred and twenty two set down for that city.

In Jersey City the quota is fast alling up, there being a little over one hundred men as yet wanted. The bounty received by some of the recruits is said to have been as high as \$400.

Quite a number of descriters have been arrested in Jersey City allor whom were found to have pictary of mency. Hey are bounty skedatoliers. They will all be sent back to their respective regiments.

The Southern Bank of Kentocky, in Carrollton, Carroll county, was robbed at half-past one o'clock this morning, by about sixteen men in uniform, who represented themselves as belonging to Sout's rebel cavalry. They were first discovered by Mr. Crawford, cashler, who lives in the rear of the bank, on whom they fired, driving him back into his house. After removing all the money from the vault and burning the papers therein, they monitod their borses and started off in the direction of owes county.

The amount of money stolen is \$100,000 in gold and silver and \$30,000 in paper money.

Every effort is being made to capture the robbers.
